The "Sarabeth"

3181 sf Ranch (with finished lower level)
1981 sf First Floor - 1200 sf(+/-) Lower Level

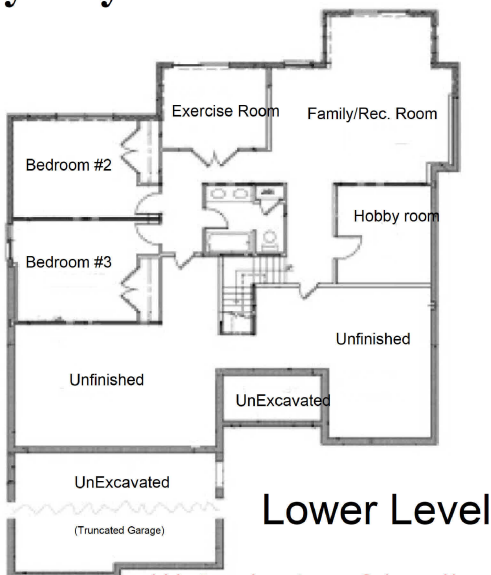

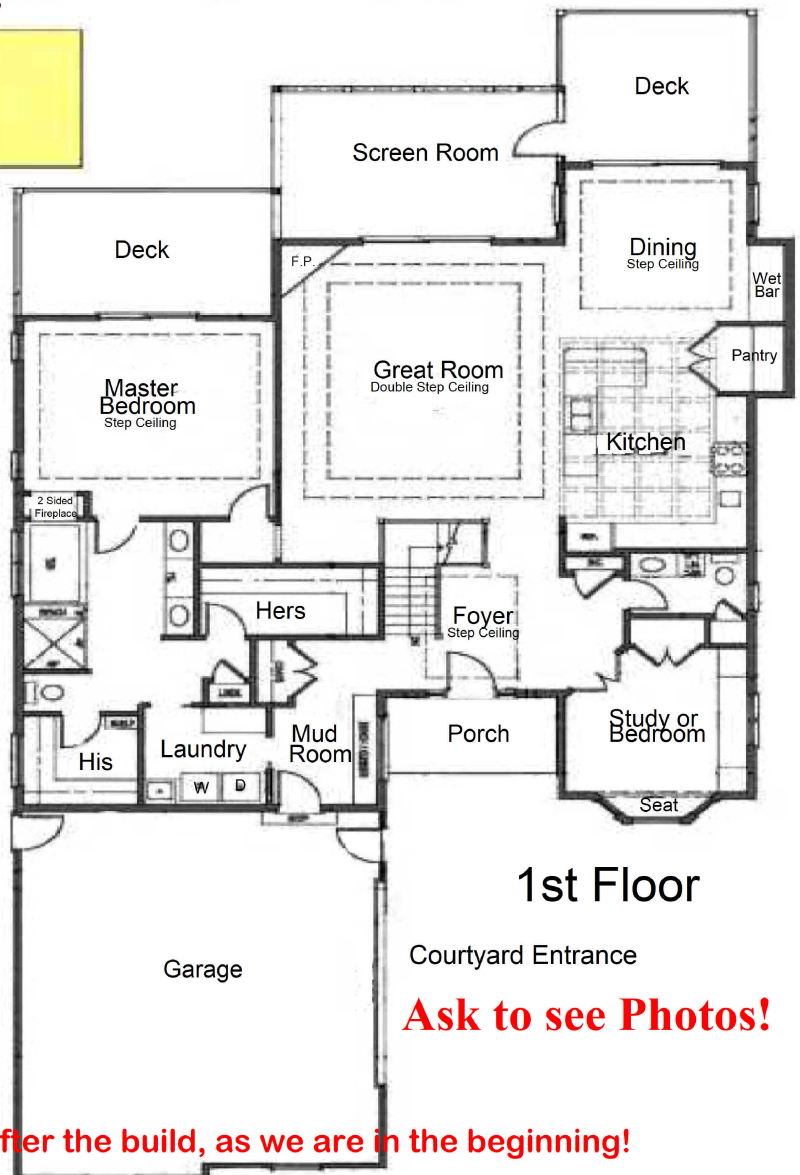

Rear Elevation

A new trend in ranch living!

Great for empty nestors or young adults. The study can double as a bedroom for grand kids or a nursery! Reduces a ranch's footprint and utilizes less expensive basement area, while giving the homeowners plenty of space for parties or family visits. Lives like a much larger home!

- Roomy open floor plan
- Super Master Suite
- Lots of closet space
- 1st floor laundry
- Oversize two car garage
- 2 1/2 Bathrooms
- Many ways to customize

We're just as friendly after the build, as we are in the beginning!
